I am examining application Serial Number 09/580,462, which is a divisional of a presequence-rules application. I need a search for the **amino acid** sequence presented in Figures 7B to 7D (copy attached hereto). The coding region of the **nucleotide** sequence presented in Figures 7B to 7D is identical to the nucleotide sequence presented in SEQ ID NO:10 of application Serial Number 07/938,154, now Patent Number 5,981,193. Could you please search SEQ ID NO:10 of 07/938,154 on the nucleotide and amino acid sequence databases. Please include an interference search if practical. Thank you.
